

DATASHEET: DUCT Tape

DESCRIPTION:

Ductape is a PE coated general purpose cloth tape with a very aggressive solvent rubber based adhesive, bonds to most surfaces, and has a good resistance to tear and moisture.

Duc tape is widely used in DIY sector.

Duc tape is also used in the asbestos abatement industry to adhere to Pplyethylene.

Also manu uses in the HVAC industry.

TECHNICAL INFO

VALUE

Carrier	Synthetic Cloth with Polyethylene
Thickness	0.19mm
Adhesive	Solvent based Rubber
Adhesion to Steel	6.6 N/cm
Tensile Strength	36.8 N/cm
Service Temperature	-10°C to 60°C
Shelf Life	12 Months

HANGON ADVISE:

The DUC tape is used for (Sand)Blasting protection.
Very strong tape.
